Lydiana Abbott (Operations Manager): lydiana@milestonesedu.com

Laura Carpenter (Secretary/Administration): admin@milestonesedu.com

Many Thanks and we look forward to working with you in the near future.

Yours Sincerely

The Milestones Team

Our Tutors & Methodology

Our team of tutors are specialists in their subject field and encompass the Milestones magic and ethos through their teaching background. Each member has something beyond their Oxbridge degrees, PhDs and impressive CVs. Beyond their excellence in academia, they are extremely well rounded, full of spirit; each has so much to say for themselves and even more to offer.

The Milestones Methodology is a framework to achieve academic and personal excellence that is carried out by our tutors. Our methodology uses a number of different approaches to adapt to each student's learning style. It ensures that our students arrive at the answers themselves and a proactive approach to learning, whereby students teach back rules to tutors to consolidate learning. Students become experts at exam technique and answering each question becomes effortless with the correct structure in place and at a rapid pace. This is all made possible due to praise for efforts, resilience and encouragement.

Insight into the Methodology:

Milestones Levels - a grading system that reflects the methods used and the targets & objectives planned for each child.

Organising the session -

1. Setting clear objectives & targets to identify learner's expectations and what he/she can do to reach beyond target.
2. Resources & materials, such as visual organisers, online resources podcasts, apps and videos prepared prior to lesson. Organised folders with all tutor lessons and homework.
3. Weekly sessions to maintain momentum, with booster sessions every 6 - 8 weeks.

Teaching the session - *using different learning styles for each student (some of the styles we use)*

1. Explanations: multi-sensory stimulation, such as colours, diagrams, verbal instruction, mnemonics, stories, etc.

2. Metacognition: knowing the 'how' & 'why' for a task and not just the 'what'. Analysing key of the task, the most effective way of approaching the task, what the first step is for the task, etc.
3. Reflexive Questions: tutors ask learners questions to get to the answer themselves.
4. Teaching back: learns teach back information to tutors to consolidate learning.
5. Modelling: showing models of academic standards and allowing students to reflect on what is good and bad with standard models. Students and tutors co-create a criteria of success.

Core Clients with Milestones Education

Core Clients at Milestones are looking for tuition for their children, whether that be at crucial points in their child's academic journey (Entrance Exams, GCSEs, A levels, UCAS personal statements, interviews, etc.) or simply to boost their confidence to ensure their child feels comfortable with their academic studies.

Core Clients receive tutors from our Milestones Core Team. These tutors hold graduate and post-graduate degrees from leading universities. They have each received Milestones training using our Milestones Methodology. Core Clients will have an Educational Supervisor who will be in charge of monitoring the progress of their child and the performance of their tutors on a fortnightly basis. As a Core Client you will have access to our Super Tutors and to the Milestones Director for booster sessions at an additional fee.

As a Core Client, your child will have access to group workshops and events to develop emotional intelligence. Public Speaking workshops, Critical Thinking, and Debate team days and afterschool activities, in addition to many other extra-curricular activities that will take place during half terms and school holidays. Our Core Clients can rest assured knowing that their child is receiving tutors that have been specifically chosen to uncover the child's potential, to feel confident in their academic abilities and achieve the truest form of themselves.

Premier Services with Milestones Education

At Milestones, we also offer a Premier Service, for clients wishing to book regular tuition with Dr Anne-Marie Idowu and the SuperTutors. Please contact us for further details.

Our Pricing Structure

Our Core Client Rates are as follows:
